

God did that thing

I was in need of a break through
Running out'a time,
and didn't know what to do
called on Jesus and "Praise His name"
all I can tell ya is I've never been the same

* (chorus)

God did that thing, God did that thing
He came through for you
God did that thing

He delivered me from the enemy
Who had got to rough for me
I was in distress but He gave me rest
And now I can say, the Lord made a way*

Come on and magnify the Lord with me
Let us exalt His name together
Clap yo' hands and give Him the praise
And you'll be sayin' the very same thing*

(Sp Ch)

God did that thing!
God did it (3X's), Yes, God did it!
